TYPE STOCKS RULE 'CHANGE.

One Hundred and Fifteen Shares

Sold at Excellent Prices.

Mergenthaler Linotype and Lanston Monotype stocks practically monopolized the market on the Washington Stock Exchange yesterday. The only other issue that showed strength was Washington Railway and Electric perferred, of which ten ahares sold at \$1.2.

A total of twenty shares of Mergenthaler sold at 171, and ten additional shares brought 172, or two full points above the price of Wednesday. The concluding sale was a guotation lot at

cluding sale was a quotation lot at 171 1-4.

as compared with previous sales of 75 3-4, and the quotation bid was raised

75 3-4, and the quotation bid was raised from 73 to 75.

A quarterly dividend of 3 per cent has been declared by the American Security and Trust Company, payable January 10 to stockholders of record December 31.

The American National Bank has declared a quarterly dividend of 2 per cent, avable January 1.

payable January 1. The transfer boo will be closed from December 27 to 31.

CHICAGO GRAIN MARKETS.

Chicago, Dec. 23.—Those in the wheat trade at Chicago who remember the destruction of the wheat plant by green bugs in 1901 and 180 in Texas and Oklahoma as well as in parts of Southern Kanaa, were taken off their feet today by a report that the little peet has already put in an appearance in the far Southwest. A message from Van Alatyne, Tax., today said O. L. Scott, of the Bureau of Entomology of the Federal government, feared the grain cross for 1958 will be materially reduced if they are not wholly lost.

There was a built, market in wheat today when the Dreember said between 1.29% and 125, the May between 1.25% and 1.16% to 5. Resting spots for the day, while \$ to \$4 cent below the best levels, showed net gains of 2543 cents. The bear shorts made several unacconstill attempts to drive prices downward.

Chair wheat sains amounted to 165,000 bushels to

ward.

Cash wheat sales amounted to 145,000 bushels today, of which 180,000 bushels were No. 1 northern
for caport. The total sales of wheat, of which
the larger portion was to go out via the Gulf,
amounted to 1,000,000 bushels and of this considerable was hard winter. Exporters also reported 1,000,000 bushels of oats as taken to go
alroued.

Lanston was demanded even more a total f eighty-five shares changing hands at 75

NOTE ON ANCONA **BOOMS MARKET**

Broadening Tendency Comes as a Surprise to Veterans of Street.

to Austria was used as the basis for a better tone at the opening. Copper shares were the leaders, Anaconda being most active. Tennessee Copper was also in good demand, selling at the topmost price since it sold slightly under fifty on November II. when the war stocks broke badly. In the early afternoon profit-taking resulted in a slight receasion in quotations from the best but the upward trend was resumed with renewed vigor in the last hour. The close was strong. A perciptible increase in business was reported by the commission houses, many doing the largest volume for any session in acceral weeks. The advance of New York Central to

doing the largest volume for any seasion in several weeks.

The advance of New York Central to a new high price was considered significant by brokers in view of the recent allier of the directors to enlarge payments to shareholders. Central's strength was said to be due to the unusually favorable showing in earnings made by the Southern Pacific for November, the general belief being that railroad statements for November will be very favorable. The establishment of a clearing-house aystem for comparison slips was precipitated by the recent congestion in commission-house business. In some large over was the greatest for any seasion in weeks notwithstanding that several issues were selling at the highest level for this movement.

The strength spread to the railroads, owing to the announcement of the favorable earnings for November. Specus lation, however, was greatest in the coppers, olls and whiskey shares. In the latter group U. S. Industrial Alcohol rose more than six points and sold at the latter group U. S. Industrial Alcohol rose more than six points and sold at the new high of 181%. Mexican Petroleum was also among those that sold at new new high of Illi4. Mexican Petroleum was also among those that sold at new high records, touching 196% on total transactions that about equalled those n Steel, common. The modified tone of the American note

DAKB'S NAVAL PLANS

retary Daniels Accedes to Demands of Critics for Facts in Official Report.

Secretary of the Navy Daniels yester-day capitulated to the demand for publication of the suppressed report of the Navy General Board. He said he would consider the advisability of giving the report to the press for publication next Monday morning. The criticism over the suppressed report and the announcement of members of Congrass that they would introduce resolutions demanding that the report be published induced Secretary Daniels to change his plans.

Secretary Daniels admitted that the suppressed July report was made at the direction of President Wilson, who requested the expert advice of the General Board as to "what the navy must be in the future." This request was made by the President after the second Lusitania note had been sent to Germany and relations with that nation were strained. The board met this request by submitting a program designed to "make the navy equal to the most powerful maintained by any other nation of the world" by not later than 1925.

It was generally believed that the state-

later than 1935.

It was generally believed that the statement referred to the British navy. Estimates of the cost of this annual building program ran from \$200,000,00 to \$500,000,00 a year. Naval officials frankly admitted that the administration gave up its hopes of equalling the British navy when it counted the cost. The present building program submitted by Secretary Daniels is designed to make the United States navy the "equal of any navy except."

In 1860 a young turtle was caught under a mill in Calais, Me., by some workmen, who cut the date onits shell. In 1859 the same turtle was caught again under the same mill and this year it was once more captured by some fishermen off the coast of Grand Manan. During the sixty-five years since 1860 it has grown only
